R11™ S 2012 TP DRIVER

FASTER, LONGER AND MORE TUNABLE THAN EVER

- Adjust the loft up or down ($\pm 1.5^\circ$) with Flight Control Technology (FCT)
- Adjust the face to one of five angles ($\pm 3^\circ$) with Adjustable Sole Plate (ASP) Technology
- Adjust the centre of gravity toward the heel or toe with Movable Weight Technology (MWT)
- Maximum-sized 460cc titanium head with Thick Thin Crown design for lower CG
- Inverted Cone Technology (ICT) promotes more ball speed on off-centre hits
- White crown and black face makes alignment easy and eliminates glare on top

WEDGES

ATV WEDGE

NEW

THE MOST VERSATILE WEDGE IN GOLF

- New ATV (All-Terrain Versatility) sole lets you play all critical shots with one wedge: chip, pitch, flop, explosion from sand, out of the rough, off a tight lie
- Bounce angle changes depending on how the head and face are positioned
- New all-milled groove design and micro-texture across the face generates more spin within R&A rules
- New lamkin wedge grip extends further down the shaft for improved traction when choking down
- New Tour-Inspired shapes with a beautiful non-plated Tour Satin finish

GRIP:

Lamkin Wedge

TRAINING AIDS

STRAIGHT PATH

N2171901

TECHNOLOGY

- Consistency in putting stroke path
- Instant putter face alignment feedback
- Improved muscle memory for proper putting stroke path
- Improved putting tempo
- Visual and audible feedback on putting path flaws

Instant putter face alignment feedback

- The TR3 True Path can be used indoors or outdoors
- Can be used with one rail, two rails, and with or without the base
- Is lightweight and portable, fitting easily into a golf bag pocket

TR3 TRUE PATH

OVERVIEW

The TR3 True Path putting trainer was designed after years of studying the putting strokes of Tour players, top PGA club professionals as well as top amateurs. The TaylorMade® putting lab data of thousands of strokes was analysed to determine common faults and the best techniques of some of the best players in the world.

Face angle and putter path are both important in successful putting. The best putters have a path that is no more than 2 degrees outside or inside the line.

TR3 SPEED STIK

SWING SPEED METRE

N2112401

TECHNOLOGY

- 650 gram Speed Stik overloads the swing, developing golf muscles for strength and speed
- Speed Metre measures swing speeds from 60 to 140 MPH delivering instant swing feedback
- 46 inch length promotes a flatter swing plane that corrects steep out-to-in or over-the-top swings
- New tapering grip area allows for a multi-compound grip that delivers maximum traction under high speeds
- Safety grip cap prevents slippage
- Collapsible design allows for easy storage

- Alignment arrows allow the Speed Stik to be used as an alignment aid while practicing
- Safety grip to prevent slippage
- 650 gram Speed Stik overloads the swing, developing golf muscles for strength and speed

OVERVIEW

The TR3 Speed Stik by TaylorMade® is a classic training aid taken to the next level to match the needs and expectations of Tour professionals, Club professionals, and average golfers alike. While the TR3 Speed Stik will accurately measure your swing speed, that is only the beginning of the game enhancement features, including strength training, grooving the proper swing plane and improving tempo. Updated and redesigned to be more useful and more manageable, the TR3 Speed Stik will be an integral part of your training program.

TECHNOLOGY

- Connection Pod allows easy and simultaneous adjustment
- Slide and snap connection holds sticks at perpendicular angles
- Positioning lines enable consistent ball placement

Positioning lines

- Alignment Stick with pod
- Club alignment
- Nylon Pod

OVERVIEW

One of the most-used training tools by Tour Professionals and Club Professionals worldwide, the classic alignment sticks have been taken to the next level with TaylorMade's TR3 Alignment Stix.

One of the most common areas of improvement that needs constant monitoring is alignment, and with the TR3 Alignment Stix we have added functionality that allows golfers and teachers to more efficiently work on ball position, targeting, swing plane, weight shift, and more.

Built to last, designed for versatility, and tested for performance.

N2133401

TECHNOLOGY

- Adjustable and fits any club, from driver to putter
- Easily stores in a golf bag
- Sophisticated TaylorMade® branding

- TR3 SPEED SLEEVE with an iron
- TR3 SPEED SLEEVE with a driver
- TR3 SPEED SLEEVE with a putter

OVERVIEW

With the TR3 Speed Sleeve, any club in the bag can be quickly and easily turned into a multi-dimensional training aid. Many weighted training tools are available on the market, but few of them are hittable, much less hittable with clubs from your own bag.

The benefits of a weighted training system are simple: increased speed, better tempo, overall muscle strength, and ultimately increased distance on full shots, and better control and tempo on chips and putts.

Accomplish all of this with the added benefit of training with the same clubs you will take on the course.

TR3 GRIP TRAINER

TECHNOLOGY

- Ergonomically designed and strategically positioned seams enhance comfort and provide a consistent fit
- Performance hook and loop closure
- Black ion interior cuff wicks moisture and enhances comfort and performance

PartNumber	Rt	Size
N21128	left hand LH	S=19, M=20, ML=21, L=22, XL=23

- Stretch the strap over the knuckles creating a secure grip
- Performance hook and loop closure
- The Grip Trainer will hold your hand in place and help learn a correct grip
